If you have RAW files from a different camera or scanner, you first need to convert them to the same format as your computer's hard drive can handle, such as TIFF or JPEG. ## Exporting Images from Your Digital Camera or Scanner If you're working on a computer with your digital camera connected to it, Windows displays a window that lets you select images for export. In Windows 7, you can also use the Preview button to preview the files available for export. (See Figure 17-2.) Figure 17-2. B&W The B&W palette includes Black and White effects, including: Dodge and Burn The Dodge and Burn tools are used to lighten or darken the edges of an image to soften contrast. You can also use a brush. The Dodge Effect (or Burn Effect, as it is called in some older versions of Photoshop) will darken or lighten the edges of the pixels in the current image, depending on the setting you use. You can increase or decrease the amount of effect with the slider at the bottom of the window, or you can use a brush. You can set the effect at the brush tool icon as well. Attention, this is your responsibility When the Church left the instruction of children to the parents, the aim was protection of that vulnerable group of people. In Jesus' time, children were unprivileged and unprotected. In that very vulnerable state, Jesus and the Apostles had a special responsibility for them to care for their spiritual development. Let's take a lesson from Jesus' life, to learn to put on the mind of Christ, and be a good parent. Give your children every opportunity to grow in faith and character. A good home is no bad thing, but unfortunately the Church has had a lot of heart ache with families that have not been good examples of Christian living. Children need you to show them how to think and act like the Christians. If you want them to be great people who are faithful in their homes, you are going to have to model that for them. What can the parents do in this regard? Jesus spent a lot of time with children, teaching them what it means to be a good person in a good way. He taught them about the kingdom of God and also about how to treat others. If you wish to have your children grow in faith and character, then take the time to teach them what it means to be a Christian. You should spend time with them, in spite of the demands on your time, from helping your husband with work, helping at school, etc, but you should also spend time with them, and teach them the truths of the faith. How do you draw them into the faith? There are some ways of getting them interested in the faith, and the first is to explain what the Christian faith is. Make sure that children understand what the Bible is about, and explain it to them. Use your teaching skills to help them understand some of the truths about salvation. God can use your children in God's plan, and you can use your children to help you bring the gospel to others. Bible story time is probably the best way to get the children's interest in the faith. There is a story in the Bible each day, read it and then talk about it. Sacraments make a big

difference to the spiritual life of the child. The regular celebration of the sacraments can be a great help for children and teenagers. Use the liturgy of the church as opportunities for teaching your children about the Christian faith, and encourage your children to take part in the life
