TO BE A CHARACTER: - You can progress the game by evolving the character attributes of the selected one. You can increase your strength by increasing your muscle strength or intelligence by increasing your attribute. - You can also enjoy various side quests by completing events. - The max level of the character is determined by the character's level at the beginning of the game. For example, if you start the game when your character is in level zero, your max level is 40. - You can evolve your character by learning and using the skills that the character have. The skills that the character learn are recorded in the skill tab. By learning a new skill, you will have to rest for several days. - When the character evolves to the level of "Elden Lord," you can research the "Elden Words" (see the description). The Elden Words are a set of words that can be used only by Elden Lords. FROM THE OPEN WORLD METHOD: - You can play the game using the "open world method," where you can play the game without entering a dungeon or an event. - You can follow the evolution of the character and have fun. - You can compare the differences between your character and those of other players, who are also playing the same game on the same server. Elden Ring Free [Mac/Win]

-----ORIGINAL POST -----UPDATE ----- I have a few technical problems that I want to know. 1. can I play the game without being a registered member on PSN? 2. how will I send in the results for the EXP offer? 3. if the game is released in August, do they intend to release free to play version first? 4. is it to be the same game as the one released last year? -----BOTTOM LINE ----- I'm starting to like it more and more, but the question is: Is this game going to be worth the money? ----- Given that we are all on in this together, I wish to emphasize that it is not OK to be buying the game who aren't interested in the other people who are interested in the game. Just try a few fights with the defenders of the law. The first one is near an NPC that is frozen, yet it can still pull off a couple of moves on you (my guess would be Kick, Grab, Hurl, then Kick). Gather some forces for PvP & PVP. After a couple battles you should be able to gather a good number of opponents for your squad. By the way, when you see people creating groups, destroy them. Do the usual scavenging and hunting in the towns and see if you can't gather more materials. If you still have time from your training, head to the Sky city, there you can find... well, stuff. Start with the Sky city's Quest Board. You can head inside there and enter the various Quests to raise your level and increase your experience points. Yup, pay a few more bucks and you can pay to skip the first battle. It's what I did. I think it's too early to tell for those who stayed at an earlier point if it makes sense. I'm sure someone's going to be able to answer that question. They've got plans for the game, and to be honest, I thought they did a good job bff6bb2d33

Most of the people I've met are deeply in love with Star Trek. I, myself, find it ridiculous, campy, even moronic. Nonetheless, on my personal blog, I've been posting some of the links to my latest posts on the Expedition to New Skies package. The major intellectual battle that exists with the ST writers is one over the use of advanced technologies to impart force fields to physical matter. Most of the people I've talked to don't like these kinds of techniques, so, you know, that's my job. I'll post the links, though. Meanwhile, I've been enjoying a post about a minor character who uses a similar technique back in the ST episode, Chain of Command.
